

# ST2-HiFi

STEP INTO A WORLD  
OF ACOUSTIC FIDELITY

# ST2-HiFi

## Musical Correction

THE WEAKEST ELEMENT OF ANY HIGH-FIDELITY SYSTEM IS THE ROOM.

Typical rooms introduce up to 10dB of distortion in the frequency response.

Furthermore, loudspeakers with a perfect impulse response don't exist.

The Trinnov's ST2-HiFi solves this acoustic equation. It takes your high-end system to a whole new level of accuracy, from high-fidelity to acoustic-fidelity.

- Step-by-step calibration wizard
- Multi-point measurements of all loudspeakers
- Up to 6 customisable profiles and 29 user presets
- Automatic alignment of delays and gains for every driver
- FIR and graphic EQs
- Remote control via VNC or external mouse/keyboard
- Automatic optimization of amplitude and phase response according to Target Curves

Now equipped with the Amethyst improved DAC Board.

Default color in silver : Black optional
